BUREAU OF THE CENSUS
A. Ross Eckler, Director

Howard C. Grieves, Deputy Director

Chief, Foreign Trade Division
DINO S. VILLA

United States import statistics are compiled from information verified by Customs Examiners on import entries filed with Customs by importers. Under the direction of Lester D. Johnson, Commissioner of Customs, the primary responsibility for the verification of imports statistical information is assigned to the field and headquarters staff of the Division of Appraisement Administration.

Groupings of commodities in terms of the Geneva Agreement Categories and factors used in converting TSUSA quantities to category quantities were supplied by the Office of Textiles, Business and Defense Services Administration, Thomas J. Davis, Chief.

SUGGESTED BRIEF CITATION

U.S. Bureau of the Census, United States Imports of Cotton Statistics, Report FT 130, June 1966. Washington, D.C. August 1966.

For sale by the Bureau of the Census, Washington, D.C. 20233. Price 10 cents (single copy). Subscription price: $1.

# GENERAL EXPLANATION

## COVERAGE

The statistics shown in this report include government as well as nongovernment shipments of merchandise from foreign countries to the United States. However, American goods returned by the U.S. armed forces for their own use are excluded. Shipments into the United States from Puerto Rico and from U.S. possessions and shipments between these outlying areas are not reported as U.S. imports, but imports into Puerto Rico from foreign countries are considered to be U.S. imports and are included in this report. Merchandise shipped under customs custody through the United States in transit from one foreign country to another is not reported as imports. Effective with the statistics for July 1965, the data in this report exclude information on all imports valued $250 or less. From January 1958-June 1965, the statistics excluded information on imports valued under $100 reported on formal immediate consumption entries and information on imports reported on informal entries (items valued not more than $250). Effective January 1962, warehouse entries valued under $100 were also excluded. Articles not of cotton but classified for customs purposes as cotton articles by similitude to cotton under the provisions of the Tariff Act of 1930 (as amended) are also excluded.

The general import data represent total arrivals of imported goods (except for intransit shipments), i.e., merchandise released from customs custody immediately upon arrival plus merchandise entered into bonded storage warehouses immediately upon arrival. These data differ from statistics on an import for consumption basis shown in most U.S. import statistical publications which represent imports of merchandise entered into U.S. consumption channels, i.e., merchandise released from customs custody immediately upon arrival and merchandise withdrawn from bonded storage warehouses for release into domestic consumption channels.

It is the objective of the compiling procedures, insofar as practical, to include shipments in the general import statistics for the month of import, which, in general, is based on the date of filing of the immediate consumption or warehouse entry.[1] However, because of processing problems, there has always been a carryover of a small percentage of items from the proper month to a subsequent month (usually the month immediately following). The amount of this carryover was increased a few years ago in order to take advantage of early release dates made possible with the use of electronic equipment.

## SOURCE OF INFORMATION

The source of information for all of the imports included in this report is the import entry (various customs forms), which importers are required to file with Collectors of Customs. Effective January 1962, statistical factors of country of origin, net quantity, value and commodity classification are verified by customs examiners on formal consumption and warehouse entries (verification of items valued $250 and under was discontinued effective July 1965). The statistical copy of the entry is corrected by the examiner if he finds that it does not accurately reflect the information called for by the statistical requirements.

## COMMODITY INFORMATION

Data on imports of cotton manufactures are presented in terms of the 64 commodity categories of cotton textiles enumerated in Appendix 3 to the GATT statement of July 21, 1961, entitled "Arrangements Regarding International Trade in Cotton Textiles," and in terms of more detailed commodity classifications within each category. Effective September 1963, imported merchandise is being reported under the statistical classifications in the Tariff Schedules of the United States Annotated (TSUSA).

## QUANTITY INFORMATION

The quantity reported in the statistics is in terms of the units of quantity set forth in Appendix 3 (see above) for the cotton textile categories. In instances where the reported quantity for a TSUSA commodity number is in terms of a unit of quantity other than that required for the category, the TSUSA quantity has been converted to the category quantity through the use of factors supplied by the Business and Defense Services Administration of the Department of Commerce. For groupings of commodities for which the unit of quantity pounds is reported, the weight represents the net weight of the commodity rather than the weight of the cotton component of the commodity only.

Abbreviations for units of quantity are shown immediately after the commodity description. The abbreviations being used are as follows:

| Abbrev. | Description |
|---|---|
| DOZ | Dozen |
| DPR | Dozen Pair |
| LB | Pound |
| NO | Number |
| SYD | Square Yard |

## COUNTRY OF ORIGIN

The country reported in the statistics as the country of origin is defined as the country where the merchandise was produced or manufactured. Where the country of origin is not known, the country of shipment is shown and footnoted in this report. Countries are reported as defined in Schedule C, Classification of Country Designations Used in Compiling the United States Foreign Trade Statistics. Country names which are abbreviated in this report to save space are shown in full in Schedule C, together with descriptions of the countries, adjacent provinces, territories, islands, or other areas considered a part of the country for statistical purposes. Schedule C is published as a part of TSUSA. A separate edition of Schedule C is also available free upon request to the Bureau of the Census.

## SOURCES OF FURTHER INFORMATION ABOUT IMPORT STATISTICS

A complete discussion of the compilation procedures and coverage for import statistics in general will be found in the Foreword to the latest edition of Foreign Commerce and Navigation of the United States. (Copies are available for reference at public libraries.) Information of value to users of foreign trade statistics (such as changes in type of shipments covered by current statistics, unusual shipments, problems of valuation, classification, etc.) is included in the monthly issues of Report FT 125, United States Imports of Merchandise for Consumption. Reports providing additional detail compiled but not published can be obtained on a cost basis. For further information regarding reference copies of tabulations or the availability of special reports, request should be made to the Bureau of the Census.

[1] For shipments by vessel, merchandise is not included in the statistics prior to the date of formal entrance of the vessel (i.e., the date of the inward Customs manifest for the vessel).

# UNITED STATES GENERAL IMPORTS OF COTTON MANUFACTURES

## COUNTRY OF ORIGIN BY GENEVA AGREEMENT CATEGORY

(The table which follows presents quantity data for United States general imports of cotton manufactures (in country of origin by commodity arrangement) in terms of the 64 commodity categories of cotton textiles enumerated in Appendix 3 to the GATT statement of July 21, 1961, entitled "Arrangements Regarding International Trade in Cotton Textiles.")

| Agreement code | Country of origin, Agreement Category description, and unit of quantity | | Net quantity: October 1965 to date | Net quantity: Current month |
